SEALING COMPONENTS FOR INDUSTRIAL PLANTS

INOXMECC Petrolseal is the manufacturing division specialized in design, production and sealing solutions for ball valves, gate valves and industrial fluid management systems.

METAL RING GASKET (RJ, RX, BX ETC.) MONOGRAM API 6A-1186

BALL AND GATE WEDGE FROM 1/2 UP TO 60"

SEATS FOR BALL AND GATE VALVES:

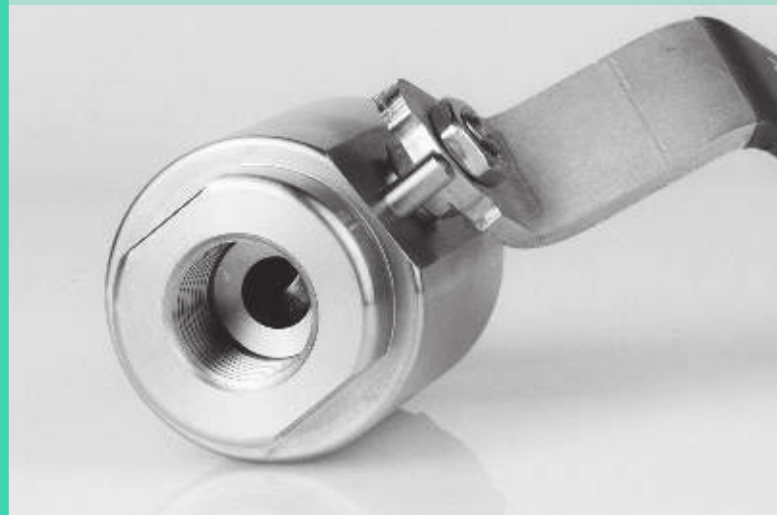

- Soft insert seats
- Delta protector seats
- Metal to metal seats
- Triple sealing seats
- Floating seats

DESIGN AND MANUFACTURE OF INSTRUMENTATION VALVES

INOXMECC Valves & Fittings being the leading manufacturer in specialized design and manufacturing of instrumentation valves with dedicated configurations, capable to meet the specific customer needs by ensuring tailored functionality with maximum reliability and quality.

- | | |
|----------------------------|-------------------|
| ■ Needle valves | ■ Relief valves |
| ■ Control valves | ■ Grease fittings |
| ■ Manifold valves | ■ Plugs |
| ■ Monoflange valves | ■ Bleeder |
| ■ Single block ball valves | |

INOXMECC Valves & Fittings committed with fully equipped technical department, capable of realizing customized and highly effective solutions.

COMPONENT MANAGEMENT, INSTALLATION AND MAINTENANCE

INOXMECC Service being a leading service provider in oil & gas sector for valves and their devices, Specialist in Management, Manufacturing Installation Maintenance Service

- Reverse Engineering
- Project Management
- Spare parts
- Valves lifecycle management
- Predictive Valve maintenance
- Reconditioning
- Reparation/replacement/revamping
- Qualified and certified welding reparation

INOXMECC Service have strong network to operate worldwide with specialized operators for providing in time service

MECHANICAL MACHINING

INOXMECC Mechanical Workshop is the consolidated division of the group, which established in 1963 to provide precision mechanical machining solution worldwide

60
YEAR
ANNIVERSARY

The long history and experience of **INOXMECC Mechanical workshop** evident that strong capacity in production of components, particularly for the oil & gas sector for its global reference, We also expand our business in various sector like...

OIL & GAS

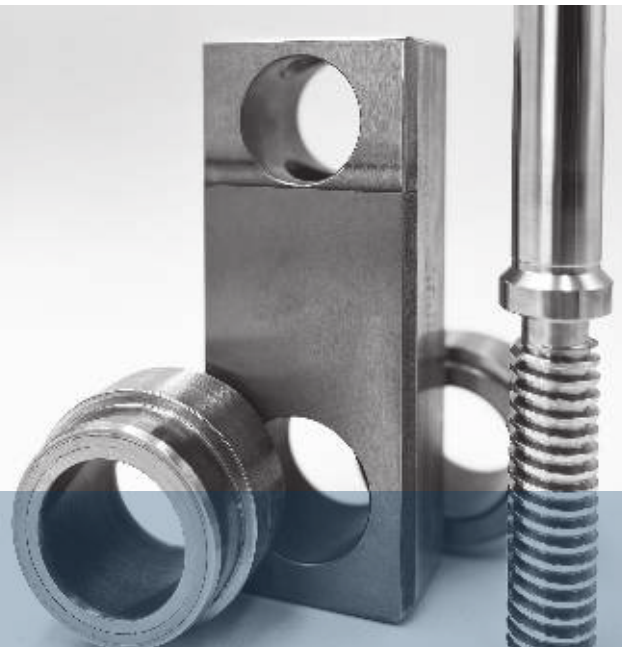

OLEODYNAMICS

CHEMICAL

PHARMACEUTICALS

HYDRAULICS

AERONAUTICS

EQUIPMENT AND SOLUTIONS FOR WATER MANAGEMENT

INOXMECC Water Equipments is a division equipped with advanced technology in wide range for manufacture and supplies in...

- Waterpumps
- Cast iron and PVC valves
- Butterfly valves
- Gate valves
- Check valves
- Flanges
- Pipes and fittings
- Vents
- Automatic connection valves
- Pipe collars

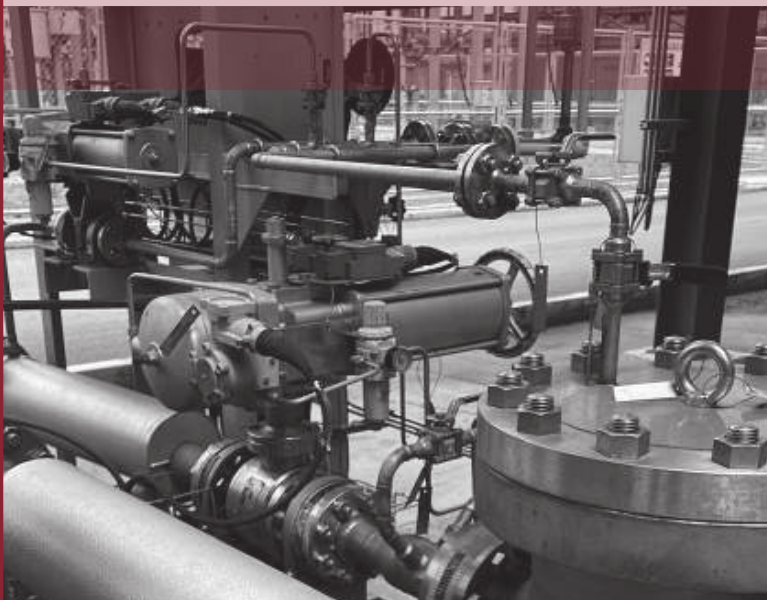

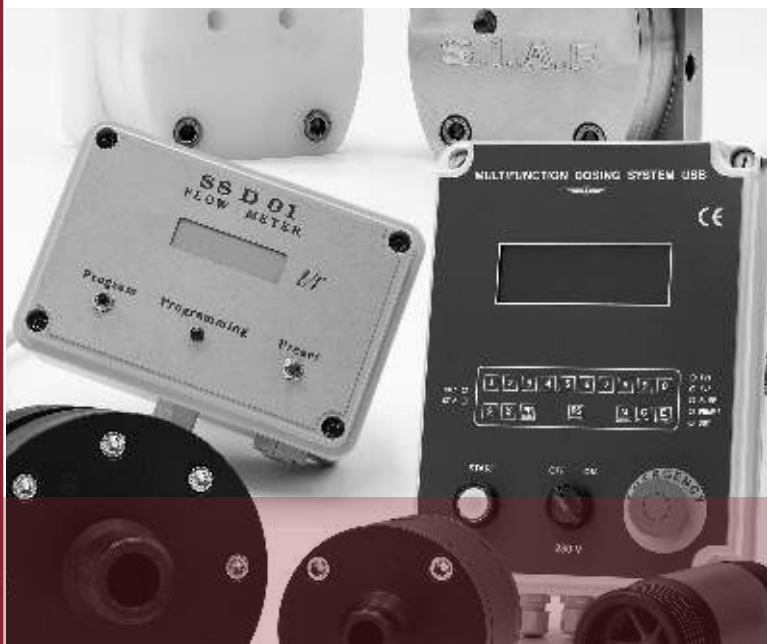

Each of this equipment can be equipped with electric motors and/or pneumatic systems

HARDWARE AND SOFTWARE FOR FLUID MANAGEMENT AND DISPENSING

INOXMECC SIAF Impianti : being leading division which actively involving in the fluid management sector

Manufacture and sells:

- Oscillating piston flow meters
- Nutating disc flow meters
- Gear meter
- Wortex flow meters,
- Woltmann Flowmeter
- Water flow meters for cold and hot water
- Electromagnetic flow meters
- Volumetric and pneumatic double diaphragm pumps
- Digital control panels for metering, totalization and predetermination
- Volumetric and pneumatic double-diaphragm pumps
- Wheeled barrel fillers

group's quality assurance

INOXMECC Group continuously enhancing its systems to improve and sustain the highest level of quality

ISO 9001:2015

ISO 14001:2015

ISO 45001:2018

- API Spec 6A-1186 – Product license for Ring Joint Gaskets
- Achilles Oil and Gas Europe
- Restamping Certification by TÜV
- Achilles Oil and Gas Africa_Meber
- EASI Etically Aware Supplier

Company with quality environment and safety system-certification

WHEN SPORT BECOMES A LIFE STYLE

ABI was born from the pure passion, technology and engineering of the oil & gas valve component industry. Inoxmecc Group decided to pursue its vision of high-end fishing equipment to the point of developing a floating roller system.

ABI TACKLE manufactures all its products 100% in Italy. Within its own closed supply chain, it designs and manufactures all the necessary components: the ABI full floating roller guide system (patented worldwide), the ABI curved and straight hubs made of structural carbon fiber, the ABI reel holder, and the ABI fighting belt also made of carbon fiber.
